

**EKO ORGANIC FOOD INDUSTRIES LIMITED**  
**JOB DESCRIPTION**

**Quality Control Analyst (FMCG)**

We are looking for a detail-oriented professional passionate about quality and food safety.

**Role Summary**

Ensure product quality and food safety by conducting tests, monitoring production processes, and enforcing compliance with established standards.

**Key Responsibilities**

- Conduct tests on raw materials, in-process, and finished products
- Monitor production lines for GMP, HACCP, and quality compliance
- Perform inspections on weight, packaging, and labelling
- Report deviations and support corrective actions
- Maintain accurate records and ensure traceability

**Competencies**

- Analytical thinking and attention to detail
- Knowledge of GMP, HACCP, and food safety standards
- Strong reporting and communication skills
- Integrity and quality focus

**Educational Requirements**

- HND/B.Sc. in Food Science, Microbiology, Biochemistry, Industrial Chemistry, or related field
- 1-3 years' experience in FMCG/food manufacturing (preferred)
